## SUMMARY

B.Tech graduate (2026) in AI & Machine Learning (CGPA 8.63) who builds and ships working software end to end. Strongest in Python: Django and FastAPI backends, REST APIs, machine learning (Scikit-learn, Pandas, NumPy) and LLM applications on the Google Gemini API, including an agent with tool calling and a vision chatbot live in production. Also builds React.js/Node.js web apps, and uses Docker, pytest and CI/CD (GitHub Actions) to test and deploy. Strong in DSA and OOP, a careful debugger and a fast learner, open to Python Developer, AI/ML and Software Engineer roles.

## EDUCATION

**Vasireddy Venkatadri Institute of Technology (VVIT) — B.Tech, Artificial Intelligence & Machine Learning** **2022 – 2026**
*Guntur, India* *CGPA: 8.63*

## TECHNICAL SKILLS

**Programming:** Python, Java, JavaScript, SQL

**Core CS:** OOP, Data Structures & Algorithms, Debugging, Problem Solving

**Backend:** Django, FastAPI, REST APIs, Node.js

**Frontend:** React.js, HTML, CSS, Tailwind CSS

**Machine Learning:** Scikit-learn, Pandas, NumPy, Classification, Clustering, Prediction, Computer Vision

**Generative AI:** Google Gemini API, LLM Integration, Prompt Engineering, Tool/Function Calling, Agentic Workflows

**Databases:** MySQL, SQLite, DBMS

**Tools & DevOps:** Git/GitHub, Docker, CI/CD (GitHub Actions), Postman, pytest

**Cloud:** Google Cloud Platform, AWS

## EXPERIENCE

**ML Intern — Skill Craft Technology** **June 2025**

- Built Python ML models: house price prediction, hand gesture recognition (computer vision), K-means clustering and SVM classification.
- Tested, debugged, and validated workflows end-to-end using Scikit-learn and Jupyter Notebook.

## PROJECTS

**AI-Based Cyber Incident Reporting System**
*Python, Django, Google Gemini Flash API, SQLite, JavaScript, Chart.js*

- Built and deployed a full-stack web app with role-based authentication, OTP verification and an analytics dashboard. Live: http://44.200.53.171:8000/
- Built a Gemini Flash (vision) chatbot: users upload a screenshot of a suspicious message (e.g. an OTP scam) and get a low/moderate/high risk level with do's and don'ts.

**AI Job Search Copilot**
*Python, Google Gemini API, Streamlit, pytest, GitHub Actions*

- Built an LLM agent with tool/function calling that fetches live job listings and returns ranked, structured results; deployed on Streamlit Community Cloud with a pytest suite and CI. Code: github.com/Sheema6144/job-search-copilot-gemini

**PulseWatch — API Health Monitor**
*Python, FastAPI, Celery, Redis, Docker*

- Built a backend service with JWT auth, Celery/Redis background checks and automated alerting; containerized with Docker Compose, tested with pytest, CI via GitHub Actions. Code: github.com/Sheema6144/pulsewatch

**Everyday Connect — Digital Literacy Web App for Adults**
*React.js, Node.js, JavaScript*

- Built a full-stack learning app with interactive modules, quizzes and Telugu-language translations, implementing quiz-scoring and application-state logic end to end.

## CERTIFICATIONS

Google Associate Cloud Engineer | UiPath RPA Developer Foundation | HackerRank Python | HackerRank SQL | HackerRank Java | AWS Academy Cloud Foundations | NPTEL Cloud Computing

## LEADERSHIP

**Student Activity Council (SAC) Member | Class Representative**

- Represented 1000+ students across 11 departments; coordinated communication between students, administration, and faculty on academic and welfare matters.
